+ Cash	\$610.00	\$0.00
+ Cheque	\$200.00	\$0.00

Each fund is listed with the “On Hand” amounts according to the system. You must do the following:

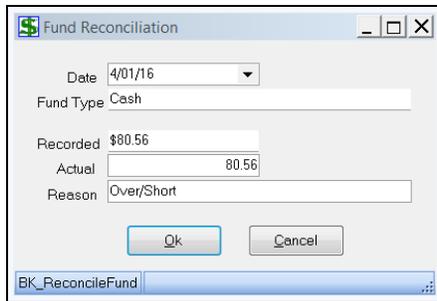

1. Compare each fund to the actual amounts as follows:
  - a. Cash amount should agree with the Deposit slip.
  - b. Debit and Credit card amounts should agree with the Interact machine.

**NOTE:** If any of the funds are short or over you must reconcile them. This is possible for the Interact transactions if you print a detail report from the Interact machine. This is not possible for the fund “Cash”. To display the detailed information for a fund, do the following:

1. Click on the plus symbol to the left of the fund.
2. For any sales where the Tendered Type is incorrect you must:
  - a. Input a new invoice exactly like the incorrect one, but with negative amounts
  - b. Input a second invoice correctly

Once you have cleaned up the errors you must “Reconcile” the funds as follows:

1. Click on the appropriate fund
2. Click on the Reconcile button at the top of the screen and the following window should appear:

Fund Reconciliation dialog box showing the following fields:

- Date: 4/01/16
- Fund Type: Cash
- Recorded: \$80.56
- Actual: 80.56
- Reason: Over/Short

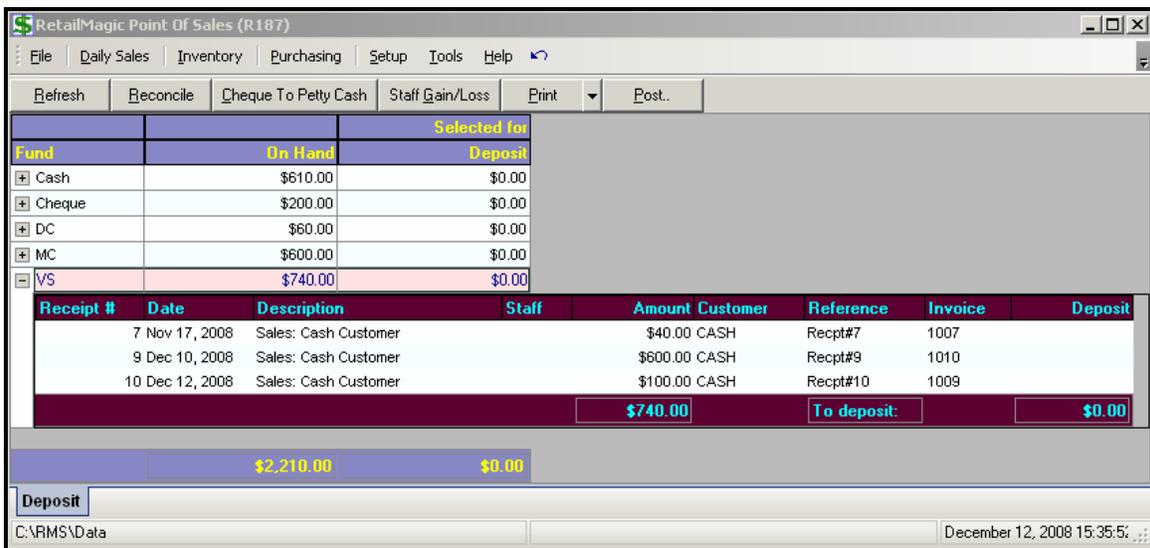

Buttons: Ok, Cancel

Taskbar: BK\_ReconcileFund

3. Input the actual amount of the fund and click the OK button. The system will calculate the change and add a detail line for that fund
4. Repeat steps 1 to 3 for any other fund that does not agree with the actual.

**To deposit the money, do the following:**
